## **CAMPSITE GUIDELINES**

During your stay with us, please help provide a quality experience for all our visitors.

1. Select campsites are available on a first-come, first-served basis or by reservation. For reservations, please refer to the “Reservations” section. For first-come, first-served sites, at least one person 18 years old or older and a proper camping unit must occupy the site the first night. After the first night, the camping unit may not be left unattended for more than a 24 hour period without permission.
2. First-come, first-served campsites will be assigned upon registering at the gatehouse. If you see another site you would prefer, return to gatehouse, before occupying to check availability, as we may have already assigned it. We will gladly change your site if requested. If gatehouse attendant is unavailable, refer to the After Hours Notice posted on gatehouse information board.
3. Please do not change sites without checking with the gate staff. This will allow for a smooth registration for all campers.
4. Visitation for registered campers is between 7 a.m. and 11 p.m. During this time a \$5 visitor fee per vehicle is charged. (After 11 p.m. a full camping fee is charged.)
5. All camping units must be placed on prepared gravel sites. Please refer to Campsite Capacity for regulations.
6. Quiet hours are observed between the hours of 11 p.m. and 7 a.m. Please return to your campsite during quiet hours as a courtesy to others. Loud music, parties, etc. will not be tolerated.
7. The use of generators is not permitted during quiet hours, except in the 24 hour generator field.

12. Day users are required to use the Day-Use parking lot.

16. Horses are not permitted on graveled living space of campsites.
17. When cleaning your campsite, please use manure pits located at the barns or pile manure at the edge of campground roads or at the end of barns, opposite side as water hydrants, so that maintenance staff can remove it easily. To protect public water supply from harmful contamination, **DO NOT TIE HORSES OR PILE MANURE NEAR WATER HYDRANTS. REMOVE HOSES FROM HYDRANT AREA.**
18. Stall cleaning is the responsibility of stall renters. Daily cleaning helps reduce flies and makes cleaning easier.
